THE CABINETMAKERS'
AUTUMN EXHIBITION
2014*

Textility – furniture inspired by a textile universe is the title of this year's Cabinetmakers' Autumn Exhibition, which, true to tradition, invites the association's manufacturers and designers to engage in dialogue and cooperation to create an experimental furniture design. This year, the dialogue revolves around textiles and furniture and their shared cross-field and stories. Textiles are soft, furniture is often hard, and in this landscape the two professions can inspire each other and create new paths and developments.

34 one-off prototypes explore the textile angle, for example by transforming a dress into an easy chair, using newspapers as a material and a source of debate, weaving with iron pipe or leather and recycled textiles – just to mention a few. The Cabinetmakers' Autumn Exhibition 2014 – Textility – furniture inspired by a textile universe is presented in the Exhibition Hall, The Royal Danish Academy of Fine Arts, Schools of Architecture, Design and Conservation, Danneskiold-Samsøes Allé 51, 1434 København from 14 November through 14 December 2014.

We look forward to seeing you there.
